

March 8, 2019

Dear ATHENA Valley of the Sun,

Thank you for the time and effort put forth in making the ATHENA Awards Luncheon such a special celebration. I enjoyed meeting so many extraordinary individuals involved in the organization and was grateful for the 'pinch me' moment of receiving the Global Leadership Award. Having the opportunity to applaud several of our local and global partners for what we have accomplished together was such an honor.

The members of your local organization championing the important work of ATHENA is commendable. Encouraging women to strive for professional excellence, engage in community service, and provide assistance to other women are all aspects of creating The Butterfly Effect. Thanks to all the beautiful ATHENA butterflies for making a difference in the lives of others and putting the extra in extraordinary.

What has been fostered through ATHENA is truly inspirational and I cherish any occasion in which women of all ages and walks of life are uplifting our 'sisterhood'. Once again, I appreciate your commitment to this noble cause and look forward to further witnessing the fluttering of ATHENA's butterfly wings on a local to global scale.

With gratitude,

Melani Walton

Thank you, again!
Wonderful luncheon
and organization —
The people make the
difference. ☺
